

MetaData

The diagram illustrates the classification of metadata into four categories based on their static or dynamic nature. A horizontal arrow at the bottom points from 'More static' on the left to 'More dynamic' on the right. Above this arrow, four rounded rectangular boxes are positioned. A large curved bracket at the top groups all four boxes under the heading 'MetaData'. The boxes are: 'Identity MetaData' (green text), 'Profile MetaData' (green text), 'Account MetaData' (red text), and 'Transaction MetaData' (blue text). The 'Account MetaData' box is positioned further to the right than the others, indicating it is more dynamic.
